

**At point 4.1 of the directives OPSC D – 02/2013 «Reporting Asset Management Costs»**

**Recognized TER concepts for collective investment schemes**

The requirements of the directives D – 02/2013 are concretized by TER concepts. The Occupational Pension Supervisory Commission OPSC may recognize the TER concept of a domestic or foreign industry association at the association's request, either globally or for a specific group of investments or providers. Recognition is conditional upon the concept's essential fulfillment of the requirements of these directives. The OPSC may recognize a TER concept temporarily or may agree further development of the concept with the respective association.

The following table shows the concepts that are recognized. The TER concepts may be used to determine the costs of collective investment schemes. The table also shows the limitations of the recognition.

TER Concept	Association	Application / limitations
<p><b>Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes</b>  <i>Issued on 16.05.2008</i>  <i>Version of 05.08.2021</i></p>	<p>Asset Management Association Switzerland  Dufourstrasse 49  P.O.
